

# Air Energy System

Extracting moisture from the air to produce safe and reliable water and energy!

## For the Realization of a Hydrogen Society!

### Large-Scale Solar Power Plants

Electricity

Electricity

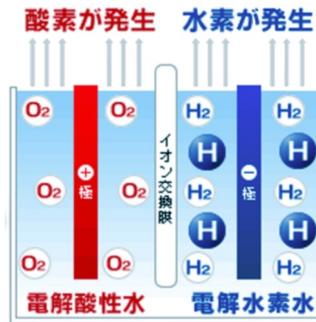

As a raw material for the chemical industry

As a source of energy

Large-Scale Atmospheric Water Generator Arrays

Water

Electrolyzation

Hydrogen

From a 1MW power plant, Approx. 32 tons of hydrogen can be produced annually!  
(Enough to refill the MIRAI about 5000 times)
